

## Getting Started Guide

### Installation

1. The installation program, ZStack-CC2430-1.4.3-1.2.1.exe, is a Microsoft Windows application. Your computer must be running Windows 2000 or Windows XP. In addition, you must have administrative rights to install the software on your system.
2. Choose **Run** from the **Start** menu in the Windows Taskbar
3. Type <PATH>\ZStack-CC2430-1.4.3-1.2.1.exe in the text box provided, and then click **OK**, where <PATH> represents your CD-ROM drive or the path to the location of the ZStack-CC2430-1.4.3-1.2.1.exe file. To search for the file on your hard disk or CD-ROM click **Browse**.
4. Follow the instructions given by the setup wizard for correct installation of the product.

**NOTE:** Please see Start->Programs->Texas Instruments->ZStack-1.4.3-1.2.1->Z-Stack User's Guide, for instructions to build, download, and execute sample applications.

---

### Installed Documentation

The following document can be found in: Start->Programs->Texas Instruments->ZStack-1.4.3-1.2.1:

- Z-Stack User's Guide – User's Guide for Z-Stack development

---

### Uninstallation

1. Run the Windows Control Panel
2. Open Add/Remove Programs
3. Select the Texas Instruments Z-Stack entry from the list of applications
4. Click on the **Change/Remove**
5. Follow the instructions given by the setup wizard for correct uninstallation of the product.
